## Colourful Characters Come to Life in a Night at Auckland Museum

As the film *Night at the Museum 2* prepares to hit cinemas, Auckland Museum unveils its own exciting *Night at Auckland Museum*.

On Sunday evenings from 17 May, families can discover what happens inside the museum when its doors close for the night. While you might not meet Ben Stiller, star of *Night at the Museum 2*, the colourful characters that spring to life include a soldier, a scientist, a wahine toa, the museum's founder, a nurse, an Egyptian princess, a Rarotongan musician and even life-sized dinosaurs.

Just like Stiller's character Larry Daley, arm yourself with a torch and explore the darkened corridors of the museum and discover how our lively 'exhibits' get along, or don't as the case may be. Race to decorate a sarcophagus, meet a portrait that won't keep quiet, discover an erupting volcano and listen to live music all at *Night at Auckland Museum*.

A coffee cart will be selling food and drinks and there will be plenty of hands-on activities to keep everyone entertained.

Every adult booked receives a free SKYCITY Cinema movie voucher for a child with a paying adult to the movie *Night at the Museum 2*. Book at [www.aucklandmuseum.com](http://www.aucklandmuseum.com), for group bookings call 09 306 7048.
